

## Enriched Method:

Used with children in all age groups, the Enriched Method is really about "enriching the learning environment, learning experiences and teaching approaches." It is not a prescriptive program as it is unique to each individual Classroom. In the Classroom the children are involved in a wide range of activities and have many opportunities for collaborative learning. Play is the main vehicle for learning in the Enriched Method Classroom.

**The children have regular opportunities to be involved in:**

*Sand Play*  
*Water Play*  
*Imaginative Play*  
*Construction*  
*Puppet Theater*  
*Creative Play*  
*Writing Table*  
*Listening Center*  
*Table Top Games*

**The areas of learning that the staff incorporates into their teaching each day include:**

*Mathematics and Numeracy*  
*Language and Literacy*  
*The World Around Us*  
*Personal Development*  
*The Arts*  
*Physical Development and Movement*
